Product Profile

Name: **BioBoost – Probiotic Supplement**

Description: **BioBoost** is a Zootechnical Feed Additive.
BioBoost contains a concentrated source of beneficial live probiotic organisms and prebiotic compounds for use in animal nutrition.

Function: Probiotic microorganisms colonize the digestive tract and compete with pathogenic organisms by physical and biochemical means to create an unfavourable environment for their establishment. Prebiotic compounds provide nutritional support to the beneficial microflora in the gut and enhance the animal's natural immune response. This results in a healthy intestinal flora which contributes to digestive stability, better health and improvements in feed efficiency and animal performance.

Application: Dairy & Beef: Feed a regular dose of 10g per head per day by top dressing or include in the ration at 200g per tonne of TMR.
Calves, Sheep & Goats: Feed 5g per head per day or add 100g per 25 kg of milk replacer.
Swine: Top dress or mix with complete rations at 1 – 2 kg per tonne of feed.

Ingredients: Saccharomyces cerevisiae fermentation product;
Dried yeast culture, dried yeast culture extract, dried chicory extract;
Dextrose, calcium silicate.

Storage: Contains live microorganisms.
Store in a cool dry area in original sealed packaging. Keep unit closed when not in use.

Shelf Life: Use within one year of date of manufacture.

Packaging: Available in units of: 25 kg bags
10 kg buckets

Typical Analysis:

Microbial: Saccaharomyces cerevisiae @ 1 x 10^9 cfu/g

Nutritional: (% D.M.)

Moisture	6.2

Physical Characteristics:

Colour:	Light brown
Odour:	Mild Yeast
Texture:	Granular Powder
Bulk Densities:	0.80 – 0.86 g/cc

Manufactured By: Micron Bio-Systems Ltd, BFF Business Park, Bath Road, Bridgwater TA6 4NZ
Approved Facility (EC) 183/2005 α GB 280/0022
FEMAS Certificate No. 44567
