

Product Profile

Name:	EnviroVac – Animal Bedding Inoculant
Description:	A biological treatment for animal bedding to improve the environment in animal housing cubicles.
Function:	EnviroVac contains a unique formulation naturally occurring bacteria and enzymes that degrade the organic wastes and odours produced in intensive animal housing situations. The treated bedding produces an environment less conducive to the growth and survival of pathogenic organisms and with improved air quality.
Application:	Distribute 0.5kg of EnviroVac evenly per 1000 square feet of bedding surface using a broadcast spreader applicator. Smaller areas can be effectively treated by distributing EnviroVac by hand. <u>Poultry:</u> For optimum results apply EnviroVac to fresh litter following house cleaning and prior to filling with birds. Allow at least 24 hours after all disinfectants and bio-security chemicals have been used before applying EnviroVac . <u>Cattle, Sheep & Goats:</u> Can be applied to bedding materials such as straw, shavings and sand or directly onto mats or mattresses. Reapply EnviroVac when new bedding is applied or at least weekly in deep bed systems. <u>Horses:</u> Apply immediately after stripping stalls or just prior to re-bedding. Allow at least 24 hours before applying EnviroVac if disinfectants and bio-security chemicals are used. <u>Canine:</u> Can be applied to bedding materials such as straw, shavings and sand or directly onto mats or mattresses. Reapply EnviroVac as required.
Ingredients:	Bacillus subtilis, Bacillus licheniformis and Bacillus amyloliquefaciens fermentation products; Cellulase, xylanase, amylase, protease and lipase; Dextrose, yeast extract, sodium aluminosilicate, calcium silicate.
Storage:	This product contains live microorganisms. Store in a cool dry place in original packaging. Keep unit closed when not in use.
Shelf Life:	Use within one year from date of purchase.
Packaging:	Available in units of: 10 kg buckets
Typical Analysis:	
Microbial:	Bacillus spp @ 1 x 10 ⁸ cfu/g
Nutritional: (% D.M.)	N/A
Physical Characteristics:	
Colour:	Grey -Brown
Odour:	Neutral
Texture:	Granular
Bulk Densities:	0.70 – 0.75 g/cc
Manufactured By:	Micron Bio-Systems Ltd, BFF Business Park, Bath Road, Bridgwater TA6 4NZ Approved Facility (EC) 183/2005 α GB 280/0022 FEMAS Certificate No. 44567
