

## Product Profile

<b>Name:</b>	<b>Equus Advance – Equine Probiotic for Working Horses</b>
<b>Description:</b>	A Complimentary Feeding Stuff for use in equine nutrition. A Probiotic for use in Equine nutrition, providing a source of viable probiotic organisms and biologically active prebiotic enhancers to promote intestinal health and function.
<b>Function:</b>	Probiotic microorganisms colonize the digestive tract and compete with pathogenic organisms by physical and biochemical means to create an unfavourable environment for their establishment. Prebiotic compounds, including oligosaccharides, provide nutritional support to the beneficial microflora in the gut while immunoglucans enhance the animal's natural immune response by increasing antibody levels and macrophage activity. This results in a healthy intestinal microflora.
<b>Application:</b>	For routine feeding include one dose of 10g (1 scoop or approx. 2 tablespoons) per animal per day mixed in with grain or other feed. For pregnant, nursing, senior, stressed, sick and recovering animals feed two doses of 10g per animal per day, preferably in two separate feedings.
