

Manufacturing Technician

Micron Bio-Systems is an international leader in biotechnology. Utilizing our scientific expertise in Microbiology, Enzymology, Biochemistry and Immunology, we develop product-based solutions for the Animal Husbandry and Environmental markets.

Micron Bio-Systems has a vacancy for a Manufacturing Technician to join our Production department based in Bridgwater, Somerset.

This position is full time working from 8.30am – 5.00pm, Monday to Friday.

Salary: Negotiable, dependent on experience

Job Description:

- Receiving, Inspecting and Storage of raw materials, packaging and associated goods.
- Documenting deliveries, stock allocation and rotation
- Following detailed work instructions to manufacture high quality products
- Working with the Production team to ensure compliance with our QMS programs
- Maintenance of a high quality work environment and resource base.
- Drive a counterbalance, Reach and PPT for materials handling. (licence preferred but training will be given to the right candidate)
- Basic understanding of computers, additional training will be provided.
- Occasional collections and deliveries using company vehicles. Full UK driving licence required.

This role also offers both on-going professional developments through training and further career opportunities within a growing innovative company.

Requirements:

- 18 Years and over
- Interested in working in a manufacturing environment
- The successful candidate will be self-motivated and enthusiastic with a willingness to succeed as a member of a highly focused, professional team.
- Some heavy lifting involved so must be capable of lifting 25kg bags

If you are interested in this position, please forward a full CV along with a covering letter to info@micronbio-systems.co.uk and include "Manufacturing Technician" in the subject line.

Closing Date: 18th October 2018
